Final Check

5 Strongly Recommend

This book is so delectable that it calls for a picnic just to read it. I might even skip dessert to read it or enjoy the book and the strawberry shortcake. Definitely part of the gourmet, decadent picnic basket.

4 Recommend without Reservation

This book should be in every picnic basket, it is as good as the perfect potato salad and would be welcome at a coastal or park picnic. You would rummage through the picnic basket to read it.

3 Neutral

This book is good for a sandwich picnic on the lawn in the shade but it may not be worthy of a picnic planned around it.

2 Recommend under Certain Reading Situations

This book is not as essential as the picnic tableware but it may provide picnic entertainment under the right conditions.

1 Unlikely to Recommend

This book is for the fast food picnic basket, where you dialed on the way to the picnic. Not sorry if this picnic is rained out.
